SUMMARY

Final-year BTech Information Technology student with hands-on experience in full-stack development, Data Science, Artificial Intelligence, and Machine Learning. Skilled in Python, SQL, Java, Django, and database technologies, with experience building end-to-end web applications and AI-driven projects. Strong foundation in problem-solving, data analysis, and software development, with an interest in applying technical skills to real-world solutions.

PROFESSIONAL EXPERIENCE

TKRCOP , Full stack web developer TKR Microgreens Django Web Application	03/2026 – Present
- Developed a responsive microgreens startup website using Django, Python, HTML, CSS, JavaScript, and SQLite. - Designed product showcases, branding, and promotional sections for a professional online presence. - Implemented a dynamic backend for managing website content and product information	
DRDL , Intern	06/2026 – 07/2026
- Developed a DNN-based WEZ prediction system to estimate Maximum Launch Range (Rmax) from 7 engagement parameters. - Built a Proportional Navigation missile simulator and generated training data using Latin Hypercube Sampling (LHS). - Developed a Streamlit application for real-time WEZ prediction, visualization, and model analysis.	

EDUCATION

Bachelor's of Technology in Information Technology , Teegala Krishna Reddy Engineering College	2023 – Present 8.8 GPA
Intermediate- MPC , New Masterminds Junior College	2021 – 2023 964 marks

CERTIFICATES

Microsoft Certified Azure AI Fundamentals	Oracle Cloud Infrastructure Agentic AI Certified Foundations Associate	Python, SQL, PowerBI Certifications From Intellipaat	McKinsey Forward Program Certificate
ServiceNow CMDB and CSDM Fundamentals	Microsoft SQL Certification- Intellipaat	NASSCOM STEM Certified	Introduction to Generative AI – IBM
Data Analysis Internship Certificate (2020 US Election Insights) – Infosys Springboard			

ACHIEVEMENTS

Women Who Master Hackathon 2026 — Aspire For Her × Logitech:
Selected for and participated in the Zonal Round of a national-level GenAI hackathon.

COURSES

Executive Post Graduation Certification in Data Science & AI , iHUB IIT Roorkee	01/2025 – 07/2026 Remote
Key Learning: Python, SQL, Statistics, Data Analysis, EDA, Machine Learning, Deep Learning, NLP, Generative AI, RAG, Agentic AI, and MLOps; applied concepts through hands-on projects and real-world case studies.	

PROJECTS

Smart Governance Assistant Hybrid RAG
- Developed an AI-powered Government Policy Intelligence platform using Hybrid RAG, enabling natural-language search and evidence-based responses from official government policy documents. - Implemented FAISS, BM25, Cross-Encoder re-ranking, OCR, and Large Language Models to retrieve relevant policy information and generate explainable responses with document citations, page references, and confidence scores. - Built citizen-focused features including multilingual policy assistance, eligibility checking, policy comparison, document version tracking, and an admin dashboard for policy management.
Hr-Resume Screener Interview-Agent
- Developed AI-powered recruitment automation system using Django, Python, and Google Gemini API to streamline resume screening, candidate evaluation, and interview scheduling. - Implemented intelligent resume analysis and mock interview modules with automated scoring, skill gap detection, and learning recommendations, improving hiring accuracy and efficiency. - Designed secure HR dashboard and candidate portal with role-based authentication, job posting management, and integrated analytics (Chart.js) for data-driven hiring decisions.

SKILLS

Languages , Python, Java, C, SQL
AI & Data Science , Machine Learning, Deep Learning, Generative AI, NLP, Statistics, EDA, Pandas, NumPy
Web & Databases :, Django, React.js, HTML, CSS, MySQL, PostgreSQL, SQLite, Microsoft SQL Server
Tools :, Power BI, Excel, Git, GitHub, REST APIs
Leadership & Activities , → NSS Coordinator → Anti-Ragging Committee Coordinator → Team Lead — Academic Projects
